FOUR-THIRTY O'CLOCK EDITION

FOR Y. M. C. A.

The fact that the University was in poverty in the Sixties is well illustrated by this circumstance, which was told by Prof. Joseph Ficklin, head of the mathematics and astronomy departments for many years. When Professor Ficklin about 1871 a pond was dug in front first came to the University in 1865, he found one of the shutters on the observatory had a broken hinge and there was no money in the treasury to buy a new one. So he get a Columbia blackamith to mend to look through the telescope at the dents in pleasant weather, while the size
